>>> >>> THE HUMAN SERVICES ALLIANCE
OF GREATER PRINCE WILLIAM

NEW MEMBER SPOTLIGHT

Willing Warriors is a privately-funded 501 (c)(3) charitable organization offering cost-free getaways from the hospital environment where Warriors and their families can come to relax, spend quality time together, and reconnect. Our programs include more than 40+ educational and recreational activities, including seminars that address the issues of dealing with PTS and TBI. **The intended outcome of these retreat stays is the Warrior and their family members return to the routine of rebuilding their lives feeling refreshed and inspired.**

Founded on the belief that healing is a journey, Willing Warriors dramatically expanded its services on July 4, 2015, by opening the Warrior Retreat at Bull Run. This serene and welcoming environment serves as a “home-away-from-home” for recovering service members and their loved ones. The retreat offers a variety of special programs and services designed to inspire strength, healing, and hope in the Warriors as they rebuild their lives.

What started as a small group of volunteers has blossomed into a coalition of passionate individuals, local businesses, churches, and organizations throughout Northern Virginia. Together, they provide vital support to those who have given so much for our country.

The Alliance proud to have Willing Warriors as part of our community and we look forward to the continued impact they will have on the lives of local servicemen and women.

To learn more about their mission and how you can support their efforts, visit their website at <https://www.willingwarriors.org/about>.

Food and local resources are crucial for sustainable living and community well-being. Local food production reduces environmental impact by minimizing transportation emissions and supporting local economies. It encourages biodiversity, promotes healthier diets, and ensures access to fresh, nutritious options.

Moreover, using local resources strengthens community resilience by fostering self-sufficiency, reducing dependence on external supply chains, and supporting local farmers and producers. Ultimately, the importance of food and local resources lies in their role in preserving both the environment and the social fabric of communities.

UVA COMMUNITY HEALTH ACCEPTING GRANT APPLICATIONS TO SUPPORT COMMUNITY-BASED PROGRAMS

Grant applications are open to non-profits registered as a Section 501(c) (3) of the U.S. Internal Revenue Code, that serve the communities of UVA Health and align with our mission. Individual grant awards start at \$2,500. Last year UVA Community Health awarded \$265,000 to local organizations whose work directly improves access to care to community members who need it most.

This year, UVA Community Health is offering two different types of grants to qualified applicants:

- Healthy Spark Grants are for organizations that focus on the needs outlined in our community health needs assessment (CHNA), as well as on social determinants of health, which are the non-medical factors that influence a person's health and well-being, such as economic stability, access to healthcare, healthy lifestyle, and access to healthy food and physical activity opportunities.
- Community Strong Grants are larger grants offered to organizations that UVA Community Health partnered with for more than two years, focus on needs outlined in our CHNA, as well as community benefit significant identified health needs, such as mental health, behavioral health, chronic disease, and access to care.

GRANT APPLICATIONS WILL BE ACCEPTED ON WWW.UVAHEALTH.COM/SERVICES/COMMUNITY-RELATIONS THROUGH APRIL 10. FOR ADDITIONAL INFORMATION OR QUESTIONS PLEASE EMAIL UVACHCOMMUNITYENGAGEMENT@UVAHEALTH.ORG .
